

Document Management for a Photocopy Price

Imagine having all of your important records accessible with the click of a mouse. No more wasting valuable time and money searching through file cabinets, storage boxes, or the warehouse. No more anxiety about losing vital records. Optimize your internal efficiency by better utilizing storage capacity, improving employee productivity, augmenting customer service—and most importantly—increasing your bottom line.

SyTech converts and electronically organizes millions of electronic, film, and paper records every month. SyTech works with customers to maximize image output and data structure. Our production system uses industry-leading Kofax Ascent Capture and Virtual ReScan software. This software, coupled with our unique seven-step quality control process, provides the highest quality assurance in the industry.

- ✓ **Instant retrieval!**
- ✓ **Print, fax, email documents with the click of a mouse!**
- ✓ **Easily searchable!**
- ✓ **Satisfy records retention requirements!**

Stop wasting valuable time and money searching through file cabinets and storage boxes.
